Veryl - I want to thank you for your prayers for my brother Jim for salvation and healing from Covid.

He is recovering from Covid and.... is now reading the Daily Bread devotional which our sister (aged 78) who came to the Lord at Easter sent him. She shared her powerful testimony with him, how she had years without peace in her heart and what a joy has filled her since receiving Christ. Our double family blessing.

Jamie - I've really felt a burden to pray more for my kids and their school as there are so many negative things that could influence them. Every day I pass their school I'm trying to pray for them and the teachers and the spiritual atmosphere there. My kids came forward to be filled with The Spirit at Pentecost and we've been reading the Bible together and praying. Today my eldest son said that a friend of his at school said that everyone should become a Christian because Joel and another Christian friend in their class were so nice and they wanted everyone to be like them! Hallelujah!!! May God continue to use them to be role models and witnesses to the beauty of God and His Kingdom at work in them! Let's keep praying for our kids and schools!

Our family was watching the Sunday service online and during the song "This is how I fight my battles" my son started crying. He said he didn't know why his eyes were running, because he wasn't upset. We asked him if he could feel the Holy Spirit and he said yes. We explained that, that is why he was crying – He could feel the presence of God. The Holy Spirit is alive and well – even in our living room.

Ngosa –

I have had severe knee pain for the past month which affected my mobility. When I went up for prayer at Mega Prayer Pastor Pauline anointed my knee with oil and prayed for me. When I woke up this morning I noticed I had no pain going down the stairs. I am now able to lift my knee for the first time in a month!
